The **3-1-1 rule** refers to limits on liquids in your carry-on bag:

- 3️⃣ **= 3.4 ounces (100 ml)** per container
- 1️⃣ **= 1 quart-sized clear plastic bag**
- 1️⃣ **= 1 bag per passenger**

This rule applies to:

- Liquids
- Gels
- Aerosols
- Creams and pastes

All items must fit inside a single clear bag for screening.

- Security checkpoints enforce the rule
- Non-compliant items may be confiscated

The airline itself doesn't set the rule—but it **strictly follows it**.
